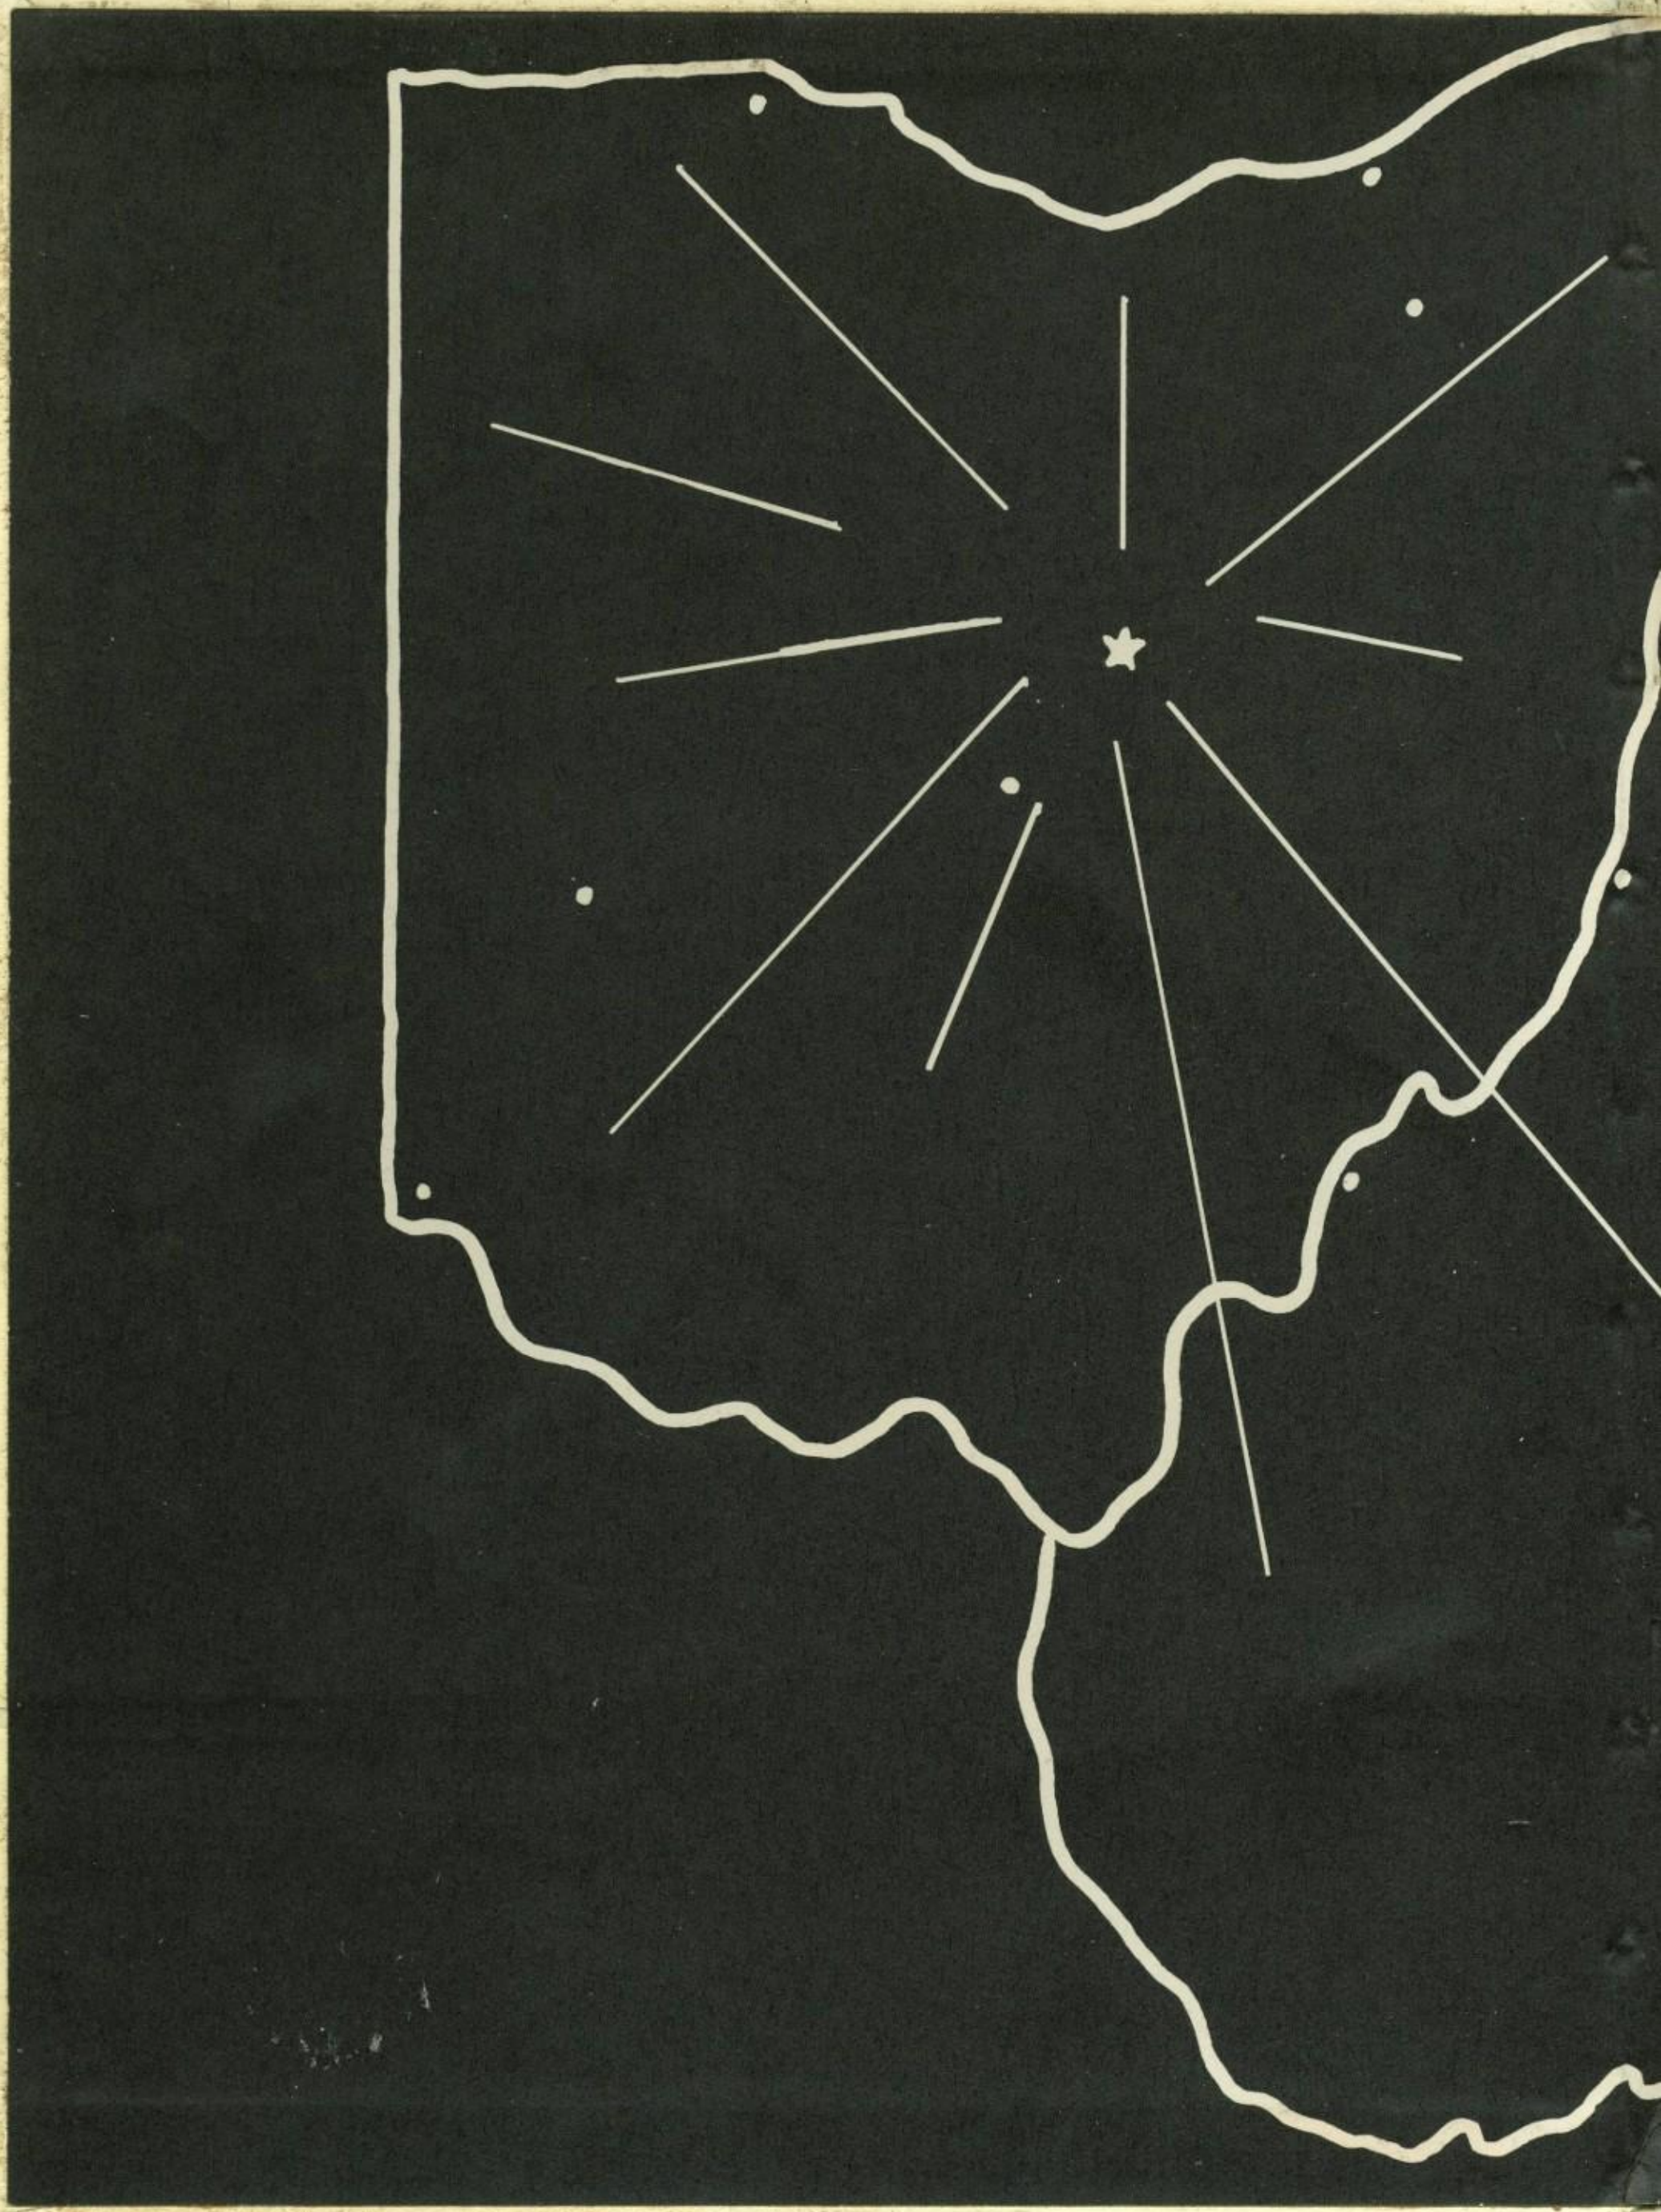
TREASURE CHEST



As we look back through this past school year, we think of the many events, the sorrows and joys, and above all, the friends which have become so much a part of our lives. We, the annual staff, hope that our efforts will help preserve these memories in the years to come.

TREASURE CHEST

1964

FOREWORD

Through the years, Mount Vernon Academy has been recognized as a progressive school, making the advancements necessary to keep pace with the times. This year has brought many changes—among them can be included this yearbook. With our new principal, Mr. Cowling, has come new vigor and direction to our school program and a new school spirit among faculty and students. Add to this, promises of even more changes in the future concerning the development of students along the physical, mental, and spiritual lines. Through the pages of this yearbook may you get a better glimpse of the changes that have taken place and the reasons for the new enthusiasm displayed by those who have come to love this campus and all it represents.

DEDICATION

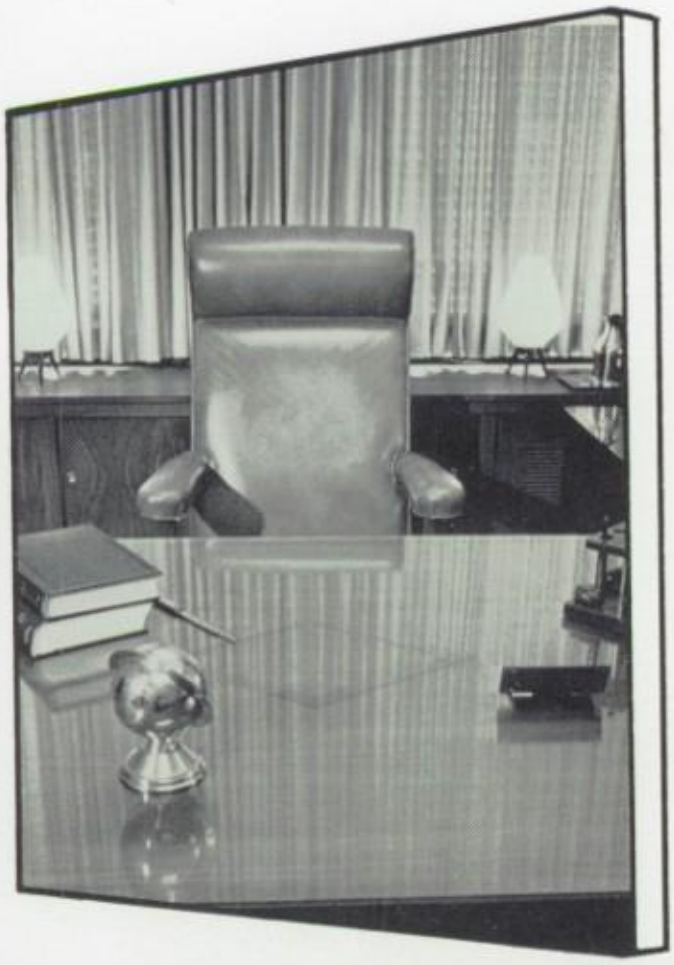
It is an honor to pay tribute to one who has become such a genuine part of Mount Vernon Academy.

We appreciate your sincere guidance in our years here at M.V.A. Your morning chapel talks have been both inspiring and interesting.

You put real meaning into your Bible classes, as you skillfully direct our discussions.

Also, you have the ability to make any team put forth its best. Win or lose, in the classroom or on the basketball court, you are a true Christian.

With our best wishes we dedicate to you, Elder Dickinson, the Treasure Chest of 1964.



ADMINISTRATION

To restore the image of God in the soul, to transform the character, to develop self-government, to learn to make wise choices, to enjoy and make use of each day, to develop the mind, and strengthen the body should be the goal of every student of Mount Vernon Academy.

Don't be satisfied with less when you can have more. It has been conservatively estimated that a college graduate will earn at least $136,000 more in his lifetime than a high school graduate. Columbia Union College's new trimester plan makes it possible for you to complete your college program in the usual four years or as few as two and two-thirds years. This plan goes into effect September, 1964.

As we look back through this past school year, we think of the many events, the sorrows and joys, and above all, the friends which have become so much a part of our lives. We, the annual staff, hope that our efforts will help preserve these memories in the years to come.
